You know the feeling all too well. You get into your car, set up the miles, and winds away. With RECARO, you step up of your car feeling relaxed and ready for whatever work can throw at you, even after a long journey. That's because our seats work around your needs. Because after a long journey. That's because our whatever work can throw at you, even of your car feeling relaxed and ready for more sitting. With RECARO, you step out for the next meeting. Sitting, sitting and seized up and stressed out – just in time into your car, eat up the miles, and arrive

"The function of a product determines its form. As RECARO designers, our top priority is ergonomics – it's all about the person in the seat."

end behind the wheel, where switching to a better posture is not an option. Your seat needs to support your body and relieve the strain. Our aim is the maximisation of ergonomics and comfort, together with the right adjustment options, are what makes a RECARO seat your seat. We know that human beings aren’t built for sitting down. Let alone for hours on

“We are experts in ergonomic design. And because we know that comfort is a combination of many factors – an ergonomic seat structure, firm upholstery, intuitive control, comfortable reach and optimum dimple to read a few.

SIT BACK AND RELAX.

The RECARO Ergomed E, Ergomed ES and the RECARO Style Topline XL carry the AGR seal. For more information, please visit: www.agr-ev.de/en/back-friendly-products/back-friendly-products/2903-carseats
