A DRIVE UNLIKE ANY OTHER
RECARO aftermarket car seats
Wilhelm Reutter founded his body shop in 1906. Ever since, we’ve been obsessed with custom mobility, and Reutter’s passion lives on in the first two letters of our brand as well as in everything we do. We’re all about making driving safer, more comfortable and more controlled – a driving experience that you can really feel. We put people first. Every time. We’re equally obsessed with motorsport. Whatever record you broke yesterday, you aspire to beat it today. That’s why we’re constantly looking for ways for you to shave a little time off your next lap – safely. Winning is one thing. But to be a champion, you need to keep learning and developing.

Our seats are more than just a set of components. They’re made of innovation, quality, premium materials, craftsmanship and a serious passion for cars. From the ultimate in comfort and ergonomics to uncompromising sporting flair, our products are as diverse and exacting as the individuals who buy them. And always in the quality you expect from RECARO. Choose cutting-edge performance that puts you in the driving seat.

Enjoy the ride!
In 1965, RECARO unveiled its "sports seat" at the International Motor Show in Frankfurt, revolutionizing car seating. The new model was an instant hit. No wonder, as even then, it epitomized a fusion of functionality, ergonomics and esthetics that RECARO now calls “Ingenious Design.” Continuously developed ever since, this RECARO DNA characterizes every single one of our products.
INNOVATION

AFTERMARKET CAR SEATS

1906
Master saddler Wilhelm Reutter starts on the development and production of car bodies, interior fittings and vehicle seats for automobiles, both in custom production and small batches, at his "Stuttgarter Carosserie- u. Radfabrik" body plant.

1920s/1930s
The company produces car bodies and interior fittings for all major car manufacturers. Precursors and prototypes of the Volkswagen (later Beetle) are also manufactured by Reutter on behalf of the Porsche design studio.

1950s
Car bodies, interior fittings and seats for the Porsche 356 go into production at Reutter in Stuttgart. By 1965, the company has built around 60,000 vehicles. Development and subsequent production of reclining seat mechanisms begins.

1965
Launch of the RECARO sports seat. The world’s first retrofit seat for automobiles is characterized by its revolutionary foam upholstery and distinctive side bolsters.

1967
The "RECARO shell seat" is RECARO’s first road-legal full shell seat. It raises the bar in safety, lightweight construction and comfort with a body-hugging seat shell, adjustment options and foam upholstery.

1969
The previous RECARO sports seat is renamed the "RECARO Idealsitz." At the same time, RECARO introduces a new trademark, which has remained unchanged to this day.

1971
A world first: RECARO unveils the first vehicle seat with an integrated seat belt – the RECARO safety seat.

1973
RECARO is the first manufacturer to offer the anti-submarining seat upholstery guide, which prevents the occupant from slipping under the belt in the event of an accident. Also making its car seat premiere is RECARO’s extendable seat cushion, an added comfort feature for tall drivers.

1974
For the world elite in touring car motorsport, RECARO launches its first racing seat with a super sturdy double shell made of the fibre-reinforced composite Kevlar – for top-level safety and low weight (6.5 kg).

1977
The new RECARO Airmatic® pneumatic lumbar support, adjustable side bolsters on the seat cushion and backrest and RECARO’s first electrically adjustable backrest significantly improve adjustability to individual requirements.

1977
Acoustic comfort: under the name RECAROfonie, the company launches a seat with stereo loudspeakers integrated in the headrest.

1981
RECARO enters the world of commercial vehicle seats, unveiling the first driver’s seat with a shock-cushioning system.

1984
A seat that remembers: The RECARO CSE comfort seat is the first to have a memory function.

1986
The first seat for taxi drivers, the RECARO T-Line, boasts breathable upholstery.

1989
Innovation in novel materials: The RECARO A8 sports seat comes with a back shell made of plastic.

1990
Cool cabbies: The company introduces the RECARO taxi seat, the first car seat with ventilation (RECARO Vent System®).

1991
The RECARO Variomed is the world’s first vehicle seat with asymmetrical adjustment options.

1995
The world’s first racing shell with head protection. RECARO’s new Pro Racer racing shell revolutionizes safety standards in professional motorsport.

2004
RECARO unveils the world’s first retrofit universal side airbag seat with ABE for different vehicle models.

2005
RECARO becomes the world’s first seat manufacturer to revolutionize seating design with its new lightweight composite shell.

2009
To this day, it remains the world’s lightest retrofit seat with ABE (German general type approval): the newly unveiled RECARO Pole Position Carbon (ABE) weighs just 4.5 kg.

2013
RECARO Automotive Seating unveils the P 1300 GT, the first racing shell with fore-aft adjustment, combining top-level safety with tailored comfort.

2019
Premiere of the limited edition RECARO Sportster CS „Nürburgring-Edition“.

2019
RECARO introduces the particularly robust seat range for off-road use: RECARO Cross Sportster ORV and RECARO Pro Racer SPG XL ORV.

2019
RECARO is the first manufacturer to offer the anti-submarining seat upholstery guide, which prevents the occupant from slipping under the belt in the event of an accident. Also making its car seat premiere is RECARO’s extendable seat cushion, an added comfort feature for tall drivers.

1973
RECARO is the first manufacturer to offer the anti-submarining seat upholstery guide, which prevents the occupant from slipping under the belt in the event of an accident. Also making its car seat premiere is RECARO’s extendable seat cushion, an added comfort feature for tall drivers.

1973
RECARO is the first manufacturer to offer the anti-submarining seat upholstery guide, which prevents the occupant from slipping under the belt in the event of an accident. Also making its car seat premiere is RECARO’s extendable seat cushion, an added comfort feature for tall drivers.
The function of a product determines its form. As RECARO designers, our top priority is ergonomics – it’s all about the person in the seat: Form follows human.

From the heat of high summer to a frosty winter’s morning, the right temperature is essential for truly comfortable seating. So RECARO came up with an ingenious system. For hot weather, the seat has a breathable membrane and air conditioning system to wick away moisture, keeping you comfortably dry, but never cold. When temperatures drop below zero, RECARO seat heating keeps you pleasantly warm.

UNCONDITIONAL COMFORT.

A RECARO seat is like a tailor-made suit. It fits perfectly, effortlessly underlining your unique personality by combining elegance, premium quality and individual style. Only products made with passion and skill make you feel this special. Crafted to perfection using the finest materials and consistent down to the tiniest detail, they say it all.

RECARO is the brand for exclusive seats made precisely to your tastes. Alongside perfect fit, they boast intelligent design that combines the ultimate in functionality, ergonomics and looks. RECARO seats are available in a wide range of upholstery materials and colors. You can even request custom or OEM materials! We’ll tailor your new seats to suit your personal preferences.

CUSTOM SEATS. TAILORED FOR PERFECTION.

“...form and manufacture meets RECARO’s premium standards. It really is as comfortable as it looks! Ultra-light carbon, cutting-edge composites, and high-end foams and textiles complete our range of materials. A great deal of traditional craftsmanship goes into our seats. From the seams and cushions to the superb finish, the finely honed skills of our craftsmen shine through. Not even the tiniest detail escapes their expert eye.

Frank Beermann
Chief Engineer Industrial Design
RECARO Automotive Seating
MAKE YOURSELF AT HOME.

An ergonomic sitting position also means a comfortable position. Driving your car should feel like a relaxing visit to the spa after a stressful week. With a range of smart comfort features and perfect seat contours that support your body, we make every journey an experience to savor.

This support is vital, as being behind the wheel forces you to sit passively – one of the worst possible positions for your body. Depending on the route, driving style and road surface, factors like centrifugal force, deceleration and vibrations come into play, which is why many drivers complain of muscle tension, circulatory problems, headaches or concentration issues on long journeys.

A good car seat has to compensate for these factors with support and protection: an ergonomic seat structure, body-hugging contours, firm upholstery, pronounced side bolsters and finely-tuned adjustment options along with breathable covers, and comfort features such as heating or air conditioning.

"RECARO is the best seat in the world. The RECARO Pole Position looks incredible and is amazingly comfortable on long journeys."

Jean Pierre Kraemer
Tuner, TV presenter and CEO of JP Performance

A professional’s workplace: Many truck and bus drivers spend eight hours a day behind the wheel and cover hundreds of thousands of miles every year. They put their trust in our safe, comfortable commercial vehicle seats.

8,164 hours. That’s the average time a person spends in a vehicle during their lifetime.

You know the feeling all too well. You get into your car, eat up the miles, and arrive seized up and stressed out – just in time for the next meeting. Sitting, sitting and more sitting. With RECARO, you step out of your car feeling relaxed and ready for whatever work can throw at you, even after a long journey. That’s because our seats work around your needs. Because we’re experts in ergonomic design.

IF YOUR BACK COULD CHOOSE IT WOULD CHOOSE RECARO.

Mobility is synonymous with modern society. More and more people are spending more and more of their time in the car. For many drivers, it’s their workplace. The seal of quality from AGR e.V, the German Campaign for Healthier Backs, helps drivers choose back-friendly products. The RECARO Ergomed E, Ergomed ES and the RECARO Style Topline XL carry the AGR seal. For more information, please visit:

With a RECARO seat where man meets machine, the road becomes a playground that gives you instant feedback all the way. It boasts a low center of gravity, firm, compact upholstery, and the necessary freedom of movement for the arms. The result: controlled cornering, and a driving experience that you can sit back and relish. Its snug, supportive seat structure and side bolsters for excellent shoulder and torso support stabilize the body against lateral forces, cocooning it like a second skin. Feel the difference!

Did you ever test a RECARO seat? Then you know how good it feels. It fits like a glove. And you feel like you’re sitting IN the seat and not ON it. This is what all RECARO models have in common. We call it Body Support.

With a RECARO seat where man meets machine, the road becomes a playground that gives you instant feedback all the way. It boasts a low center of gravity, firm, compact upholstery, and the necessary freedom of movement for the arms. The result: controlled cornering, and a driving experience that you can sit back and relish. Its snug, supportive seat structure and side bolsters for excellent shoulder and torso support stabilize the body against lateral forces, cocooning it like a second skin. Feel the difference!

Everything under control? The driver’s seat plays a key role in this, especially if your driving style is sporty. The better your sitting position, the sharper your reactions and the more fully you have the vehicle under control. RECARO builds seats that support the body perfectly so that you can drive with greater concentration and safety. When developing sports seats for the road, we draw on our many years of experience and innovation in motorsport.

“RECARO’s constant innovation to keep racers and enthusiasts safe and comfortable – no matter our choice of fun from behind the wheel – is something I am very grateful for. There is no question RECARO’s effort and passion has saved me from serious injury on more than one occasion, both on and off-road.”

Countless RECARO fans have voted for their favorite brand in recent years: 14 x winner in the “auto motor und sport” Best Brand readers’ poll, 12 x “sport auto” Best Brand, 5 x “Auto Bild” Best Overall Brand, and many more prestigious awards. This is a special honor for which we would like to say thank you. You inspire us to keep reaching for the stars.
With many car manufacturers, it’s often worth looking at the options and equipment lists to make sure that your new car comes with RECARO seats. The international automotive industry has put its trust in RECARO from the day the brand was born. Our customers value both the renowned quality of our products and our innovative prowess. We regularly join forces with vehicle manufacturers to develop custom solutions, be it for special editions, performance vehicles or exclusive premium cars.
YOUR RECARO SEAT STARTS HERE.

Your custom RECARO seat experience is just a few steps away. Take your time and begin by asking yourself a few questions. What’s crucial to me when I’m sitting in the car? What do I want from my RECARO seat? What should it look like? How does my passenger want their seat?

Consultation with an authorized RECARO partner

Order and purchase from an authorized RECARO partner

Installation and documentation by a qualified and authorized RECARO partner

After getting an initial overview from this brochure or a visit to our website, we always recommend a personal consultation with an authorized RECARO partner. They will listen to your personal criteria and find the perfect solution. Round off your visit by trying out your favorite seat model.

Please note that the installation of RECARO seats in your car requires special baseframes to ensure a perfect, secure fit. Our partners will be happy to help.

THE RECARO SYSTEM.

German general type approval (ABE)/TÜV component certification requires a RECARO baseframe or RECARO sidemounts. Please consult your service partner for more information.

THE SCIENCE OF SITTING.
RECARO Orthoped

The RECARO Orthoped is designed with the ultimate focus on the human body. It was developed by our ergonomic design experts for the most discerning drivers who have special requirements when it comes to supporting their spine. Users will love its custom-paddable shoulder support, electrically adjustable backrest side bolsters and multi-chamber lumbar support. Its flat seat cushion makes getting in and out a breeze. These features make the RECARO Orthoped perfect for high vehicles like SUVs.

Standard features
- RECARO climate package (heating and air conditioning)
- Electrically adjustable backrest side bolsters
- Lumbar support
- Extendable seat cushion
- Easy-to-operate switch pack
- Custom-paddable shoulder support
- Electric backrest adjustment
- Adjustable headrest
- Backrest release on both sides
- Easy Access to make it easy to get in and out

THE FLEXIBLE EXPERT.
RECARO Expert S, M

If flexibility is top of your list, look no further! The modular design of the RECARO Expert adapts to different body sizes. It’s available with S and M seat cushions that vary in the length of the seat surface and the height and contours of the side bolsters. Shorter drivers will find that the short seat cushion and flat side bolsters make getting in and out a breeze (S version). Adjustable backrest side bolsters come as standard, rounding off the perfect body support. Feel your driving performance soar!

Standard features
+ Paddable lumbar support
+ Preformed side bolsters
+ Backrest adjustment on both sides
+ Adjustable headrest
+ Backrest side bolsters adjustable on both sides
+ Backrest release on both sides

RECARO Expert S
+ Seat cushion for people of small to medium build: short seat cushion with flat side bolsters

RECARO Expert M
+ Easy Access to make it easy to get in and out
+ Seat cushion for people of medium to large build: long seat cushion with less pronounced, very flat side bolsters
+ Extendable seat cushion

THE FLEXIBLE EXPERT.
CLASSIC REFINEMENT.
RECARO Expert Houndstooth

In style, comfort and performance, RECARO Expert seats are a giant leap ahead of standard automotive seats. And our new Limited Houndstooth Edition features distinctive upholstery that will remind you of some of the world’s great sports cars of past decades. No other seat manufacturer can rival the quality and handmade craftsmanship of real RECARO seats. Best of all, these seats, like all RECARO seats, have our proprietary and world-renowned ergonomic technology built in. The result is seats in your car that look great, feel great, are kind to your body, and leave you feeling refreshed after a long drive.

Standard features
- Paddable lumbar support
- Preformed side bolsters
- Backrest adjustment on both sides
- Adjustable headrest
- Backrest side bolsters adjustable on both sides
- Backrest release on both sides
- Extendable seat cushion

**REFINED ELEGANCE WITH HIGH PERFORMANCE.**

**RECARO Sportster GT**
Push your bottom as near as possible to the backrest. Adjust the distance from the seat to the pedals so that your knee is slightly bent when the pedals are fully depressed.

Rest your shoulders as near as possible to the backrest. Set the backrest tilt so that the steering wheel is easy to reach with slightly bent elbows and your shoulders stay in contact when turning the wheel.

Set the seat height as high as possible for an unobstructed view of all sides and all the instrument panel displays.

Set the seat cushion tilt so that it is easy to fully depress the pedals. Your thighs should rest gently on the seat cushion without exerting pressure on it. Check the backrest tilt before starting the engine.

Adjust the extendable seat cushion so that your thighs rest on it to just above the knees. The rule of thumb is two to three fingers’ clearance between the seat edge and the hollow of the knee.

The lumbar support has been adjusted correctly when it supports the natural curve of your lumbar spine.

The seat’s side bolsters should fit snugly enough to support your upper body at the side without restricting it.

If possible, adjust the upper edge of the headrest to the same height as the top of your head. Tilt. The distance to your head should be approx. 0.79 inch.

Notes: Customers may provide their own bespoke upholstery materials. These must be suitable and approved for use in the automotive sector. The seat air conditioning and heating functions may be restricted as a result. Current seat upholstery from selected automotive manufacturers is available on request (restrictions apply).

RECARO COMFORT DIMENSIONS

At RECARO, people are the focal point. With this in mind, here are some comfort dimensions to help you find the seat that’s right for you. Comfort dimensions are the size factors that you feel when you’re behind the wheel, and that have a direct influence on your comfort and performance. They are vital for comfortable sitting. But everyone is different and has different preferences when it comes to comfort. We recommend testing our seats thoroughly at a RECARO service partner before buying.

The comfort dimensions are measured on the upholstery and seams. Small deviations cannot be excluded.

NOTES:
- Seats with adjustable headrest were measured at a backrest angle of 73 – 74°.
- The seat height indicates the vertical height of the backrest from the top of the headrest to the top of the seat cushion.
- Seats with adjustable headrest:
  - Minimum dimension with retracted headrest.
  - Maximum dimension with fully extended headrest.
- The seat width indicates the width of the seat cushion without side bolsters. This dimension was measured 4.7 inches in front of the bottom of the backrest.
- The seat depth indicates the total horizontal length of the seat cushion from the front of the cushion to the bottom of the backrest.
- Seats with extendable seat cushion:
  - Minimum dimension with retracted seat cushion.
  - Maximum dimension with fully extended seat cushion.

Dimensions in inches, all dimensions ±0.4 inch

KEY FOR COMFORT DIMENSIONS:
- A: Seat height
- B: Seat width
- C: Seat depth
